# PREPARING FOR THE **DIGITAL** **WORKPLACE**

SKILLS*future*

# SkillsFuture for Digital Workplace

As Singapore advances towards a digital economy, how will your life and workplace change?

Find out how you can prepare for these changes ahead and give your career and productivity a boost at the same time. The SkillsFuture for Digital Workplace programme is a national initiative designed to equip Singaporeans with the skills and confidence to take on the technological changes in their daily lives and the workplace.

## HOW WILL I BENEFIT?

### FIND OUT MORE ABOUT:

- ✓ How to be job-ready in the future economy
- ✓ Why cyber security is important in the workplace
- ✓ How digitalisation can improve work practices and increase productivity in the digital economy
- ✓ What it is like to work in a technology-rich environment
- ✓ How to use common digital tools and software to perform everyday tasks (such as making digital payments)

**LEARN HOW DATA, TECHNOLOGY AND INNOVATION CAN HELP YOU IN YOUR JOB AND IN YOUR LIFE**

## A FUTURE-READY SINGAPOREAN IS:

- ✓ Prepared to overcome technological changes in workplaces
- ✓ Aware of current and new technologies and the impact of digitalisation in the digital economy
- ✓ Able to use new technological knowledge and skills to advance in his or her career

## WHAT TO EXPECT

**Course Fee of \$50 nett**  
(includes GST)

**Interactive Classes with Digital Technology**

Be part of a digital workforce that is confident, resilient, and adaptable in technology-rich environments.
