### Knowledge

- Types of Emergency Preparedness and Response Plans (EPRP) relevant to the industry and/or building evacuation
- Types of emergency scenarios relevant to the industry and/or building evacuation
- Types of resources required for responding to emergency scenarios
- Interpretation of emergency response plans
- Roles and responsibilities of the emergency response team
- Legislative requirements related to emergency preparedness
- Types of emergency preparedness and response training
- Types of data sources to evaluate improvements for EPRP
- Implications of effective emergency response at workplace
- Methods for training stakeholders on emergency preparedness and response
- Methods to evaluate existing information and identify improvement opportunities
- Methods of hazard and vulnerability assessment
- Industry best practices

### Abilities

- Respond emergency situations in accordance with the EPRP
- Alert supervisors of potential escalation of emergency situations
- Communicate risks relating to emergency response plans and suggest areas for improvements
- Participate in the conduct of emergency response
- Coordinate the implementation of emergency response plans relevant to the identified emergency scenarios
- Communicate EPRP to stakeholders
- Identify risks of EPRP and implement improvements as needed
- Coordinate the conduct of emergency response
- Establish internal procedures for notifying and escalating relevant emergency scenarios to relevant external agencies
- Establish points of contacts with relevant external agencies for emergency handling
- Determine and deploy resources as required
- Conduct hazard and vulnerability assessments
- Identify the types of emergency scenarios for preparedness and response planning relevant to the organisation
- Research and evaluate existing information to review and evaluate needs and opportunities for improvement within organisation
| Drills in accordance with the EPRP | Drills in accordance with the EPRP  
- Coordinate the maintenance of emergency response equipment | Conduct in pilot testing to determine effectiveness of the plan  
- Recommend improvements to EPRP in alignment with organisational and legislative requirements | Evaluate the effectiveness of the organisational EPRP in accordance with organisational and legal requirements  
- Engage management in driving emergency preparedness for the organisation  
- Endorse recommendations for EPRP improvements |
