### Knowledge

- **Common risks and safety hazards in the workplace and public transport premises**
- **Use of tools and equipment in the workplace**
- **Types of prohibited and dangerous items in public transport premises**
- **Personal Protective Equipment (PPE), safety devices and equipment**
- **Interpretation of safety and warning signage**
- **Organisational Workplace Safety and Health (WSH) policies and procedures**
- **Types of risk control measures**
- **Methods of risk and hazard assessment**
- **Bus Services Industry Act**
- **Types of risks and safety hazards within the workplace public transport premises**
- **Principles and methodologies of risk assessment and control**
- **Features required for on-site safety plans**
- **Facilities safety documentation methods**
- **Organisational Workplace Safety and Health (WSH) policies and procedures and workplace safety legislative requirements**
- **Rapid Transit Systems Regulations**
- **Bus Services Industry Act**
- **Features required for on-site safety plans**
- **Principles and methodologies of risk assessment and control**
- **Emergency response plans and procedures in the workplace**
- **Organisational Workplace Safety and Health (WSH) policies and procedures and workplace safety legislative requirements**
- **Rapid Transit Systems Regulations**
- **Bus Services Industry Act**
- **Types of risks and safety hazards within the workplace public transport premises**
- **Organisational Workplace Safety and Health (WSH) policies and procedures and workplace safety legislative requirements**
- **Rapid Transit Systems Regulations**
- **Bus Services Industry Act**
- **Best practices in organisational workplace safety policies and procedures**
- **Safety features of public transport workplace and facilities**
- **Performance standards of safety and facilities maintenance**
- **Emergency response plans and procedures in the workplace**
- **Organisational Workplace Safety and Health (WSH) policies and procedures and workplace safety legislative requirements**
- **Rapid Transit Systems Regulations**
- **Bus Services Industry Act**
- **Devising risk control measures and frameworks to mitigate risk and safety hazards at the workplace and facility**

### Abilities

- **Execute work activities, and safe handling and operations of tools and equipment in accordance with**
- **Monitor and ensure staff compliance to workplace safety requirement and procedures and safe handling and operations of tools and equipment**
- **Assess potential risk and safety hazards in public transport workplace environment and premises**
- **Devising risk control measures and frameworks to mitigate risk and safety hazards at the workplace and facility**

<thead>
<tr>
<th>Work Item</th>
<th>Description</th>
</tr>
</thead>
</table>
| Workplace safety requirements | • Identify potential risks and safety hazards at the workplace and/or public transport premises  
• Advise commuters on safety in public transport facilities and on bus or on trains  
• Report abnormalities observed in the immediate work environment  
• Participate in organisational workplace health and safety review and risk assessment exercises  
• Propose measures to enhance safety of the workplace and public access areas in public transport premises |
| • Advise internal and external stakeholders on safety in public transport facilities  
• Conduct visual inspections of the workplace and/or public transport premises to identify and mitigate potential risks and safety hazards  
• Determine risk and safety hazards in public transport environment  
• Assess inadequacies in existing risk control measures and frameworks  
• Update and maintain documentation related to risk controls in the workplace  
• Recommend plans and strategies to enhance risk control measures and frameworks in the workplace |
| • Develop risk mitigation measured within public transport premises  
• Supervise work operations to ascertain adherence to workplace safety requirements  
• Manage and implement risk control measures to mitigate safety hazards at the workplace |
| Public transport premises | • Make recommendations to enhance and incorporate safety features in the workplace, facilities and public access areas  
• Initiate conversations to convey legal compliance requirements and organisational safety culture and practices to internal and external stakeholders |
