### Knowledge
- Organisation's overall business strategy
- Organisation's UX and UI strategies
- Organisation's business goals and objectives
- Organisation's products and services
- Organisation's web properties and visual assets
- Customer behaviour insights
- Stakeholder management
- Criteria for identifying opportunities for site design improvement
- Processes involved in performing usability evaluation
- Types of logos and trademarks related to the design concept
- Types of design specifications
- Organisation's overall business strategy
- Organisation's UX and UI strategies
- Organisation's business goals and objectives
- Organisation's products and services
- Organisation's web properties and visual assets
- Customer behaviour insights
- Stakeholder management
- Criteria for identifying opportunities for site design improvement
- Processes involved in performing usability evaluation
- Types of logos and trademarks related to the design concept
- Types of design specifications
- Organisation's overall business strategy
- Organisation's UX and UI strategies
- Organisation's business goals and objectives
- Organisation's products and services
- Organisation's web properties and visual assets
- Customer behaviour insights
- Processes involved in designing and developing web properties and visual assets
- Types of metrics to perform usability evaluation
- Types of digital properties
- Criteria for improving overall UI and UX design
- Organisation's overall business strategy
- Organisation's UX and UI strategies
- Organisation's business goals and objectives
- Organisation's products and services
- Criteria to review the usability evaluation and return-on-investment of UI and UX designs
- Customer data in terms of UI and UX optimisation
- Customer personas and behaviours
- Competitive landscape in terms of UI and UX optimisation
- Customer experience modelling and roadmaps
- Strengths and weaknesses of potential development partner(s) to ensure successful execution of UI and UX strategies

### Abilities
- Gather feedback from users about an existing site or plans related to a
- Execute UI and UX strategies related to the design and development
- Cascade UI and UX strategies into UI and UX implementation plan
- Translate organisation's overall business strategy and vision into UX and UI
