### Knowledge

- Plant species present in the nursery
- Planting and plant maintenance methods and techniques
- Methods to establish and maintain hard elements in plant displays
- Tools and equipment required for planting and plant maintenance
- Methods and techniques for handling plants
- Personal protective Equipment (PPE) required for horticultural tasks
- Relevant workplace safety and health (WSH) guidelines

- Principles of display design
- Availability and application of materials used in display creation
- Techniques for estimation of space and load bearing capacity in an area
- Nutritional requirements of plants in the nursery
- Planting procedures required for plant displays
- Maintenance procedures required for plant displays
- Process and format for labelling plants and merchandise
- Methods to track nursery inventory
- Personal protective Equipment (PPE) required for horticultural tasks
- Relevant workplace safety and health (WSH) guidelines

### Abilities

- Wear appropriate PPE when performing display creation tasks
- Assist in site preparation prior to set up of horticultural displays

- Wear appropriate PPE when performing display creation tasks
- Prepare site prior to set up of horticultural displays

- Supervise site preparation prior to set up of horticultural displays
- Provide space and load estimations for

- Assess site to ensure suitability for planned displays and evaluate the preparation required for setting up displays
- Establish objectives and performance criteria for
| **SKILLS FRAMEWORK FOR LANDSCAPE**  
**TECHNICAL SKILLS AND COMPETENCIES (TSC) REFERENCE** |
|---|
| **• Assist in planting to set up nursery displays**  
• Select appropriate tools for display creation tasks as instructed  
• Assist in the installation of irrigation mechanisms and hard elements of displays  
• Position plant materials and merchandise in or around nursery displays as instructed  
• Water plants in nursery displays according to irrigation schedule  
• Prune plants in displays  
• Clear horticultural waste from displays** |
| **• Select plant specimens of required quality and size**  
• Execute planting in the display as per layout and designs provided  
• Establish hard elements of the display according to designs provided  
• Install irrigation mechanisms for watering of plants in displays  
• Label plants and merchandise in the displays  
• Use fertilisers to maintain plant nutrition  
• Replace dead plants to maintain the visual impact of the displays  
• Monitor nursery displays to ensure plant health and aesthetics are up to required standards** |
| **• Consideration in display designs**  
• Plan the creation of displays by identifying timeline and manpower requirements  
• Evaluate cost of creation and management of displays  
• Guide workers in the setup of nursery displays  
• Review the labelling of plants in the displays  
• Develop maintenance plan and schedule for plants in the displays  
• Inspect condition of plants in nursery displays  
• Track sales performance of displays through tracking metrics for plants and merchandise used in displays** |
| **• Identify plants and merchandise for display in accordance with strategy and marketing plans**  
• Determine promotions, offers and related communication and branding to complement displays in driving sales  
• Conceive the theme of the planned displays in alignment with current or popular cultural context  
• Determine layout, presentation and user flow of planned displays  
• Review progress of nursery display developments  
• Communicate performance of displays to enhance sales of plants and merchandising** |
